About Us

Founded in 1975 by Yılmaz Akdoğan in Adana, SETAŞ İnşaat, Trade and Industry Inc. has been a hallmark of trust and quality in various service sectors across Türkiye for nearly half a century. Today, our group operates in construction, infrastructure, water, natural gas, distribution systems, mining, energy, and trade throughout Türkiye, backed by our skilled workforce. From major irrigation projects for the State Hydraulic Works to various undertakings for the Ministry of National Defense, our group has established a strong presence in major ventures, with our robust brand identity securing a prominent position in the industry.

The increasingly competitive environment in the national economy has made it more important than ever for manufacturing companies to create a strong brand. SETAŞ İnşaat Trade and Industry Inc. has demonstrated its strong brand identity by adding value to the country's economy, both through its sectoral diversity and its cutting-edge equipment. Since our inception, our primary goal has been to become the brand of choice in all sectors we operate in while ensuring sustainable profitability. We've steadily progressed towards this objective, driven by innovative solutions and projects that address the needs of our rapidly changing world.

Throughout our journey, we've maintained our consistent approach and financial reliability. Our young, dynamic, talented, and professional team combines experience with quality, adhering to ethical and moral standards in all our relationships – with customers, society, suppliers, and shareholders alike. We've provided modern and dependable services, developing optimal solutions for evolving institutional needs and cultivating a satisfied customer base.

Our Values

- Timely Project Delivery
- Skilled and Experienced Team
- Modern and Optimal Equipment
- Strong Financial Resources
- Transparency and Accountability

Our Values

Skilled and experienced team

Our company works with a team that commands experience and specialized skills in the industry. Each of our personnel is an expert in their own field and has the necessary knowledge and experience to successfully complete our projects. Every member of our skilled and talented team is in a constant state of self-improvement to enhance the quality and success of our projects.

Timely project delivery

At SETAŞ İnşaat, we commit to completing our projects on set dates, honoring the contracts we make with our clients. Through our professional approach, we aim to maintain the highest level of customer satisfaction with diligent time management.

Modern and optimal equipment

As SETAŞ İnşaat, we use the state-of-the-art equipment necessary to successfully complete our projects. Our modern and optimal equipment not only increases our work efficiency but also ensures safety. With the high quality of our equipment, we guarantee delivery on time and without any defects.

Our Values

Strong Financial Resources

We have a robust financial structure that supports the successful completion of our projects and ensures customer satisfaction. Built on this solid financial foundation, our company is able to make steady progress on long-term initiatives. Our financial strength instills confidence in our customers while also opening up new opportunities and avenues for growth.

Transparency and Accountability

At SETAŞ İnşaat, we are committed to the principles of business ethics and integrity, embracing transparency and accountability. By maintaining open communication with our customers, we manage our operations with transparency and strive to be accountable at every stage. As we keep our customers informed about the activities and decisions of our company, we never compromise on honesty and reliability.

The Power of Setaş İnşaat in the Energy Sector

SETAŞ İNŞAAT

Corporate Name: SETAŞ İnşaat Ticaret ve Sanayi A.Ş.

Field of Activity: SETAŞ İnşaat Ticaret ve Sanayi A.Ş., founded by Yılmaz Akdoğan in Adana in 1975, has made its mark with major projects such as the Large Irrigation Constructions of the State Hydraulic Works (DSİ), the Konya Military Arsenal Construction for the Ministry of National Defense, building construction for the Ministry of National Defense in Ankara, and Natural Gas Pipeline construction for BOTAŞ. The company has also gained recognition for significant construction projects in DSİ-built irrigation structures, including regulators, tunnels, pump stations, bridges, roads, and steel penstocks. Today, it is active in various construction projects across many parts of our country.

SETGAZ DOĞALGAZ

Corporate Name: Setgaz Doğalgaz İthalat İhracat ve Toptan Satış A.Ş.

Field of Activity: Setgaz Doğalgaz İthalat İhracat ve Toptan Satış A.Ş., established on February 20, 2002, has secured two key licenses under the Natural Gas Market Law No. 4646. The company holds a Natural Gas Export License, valid for 30 years from April 8, 2010, authorizing natural gas exports to Bulgaria, as well as an Import (Spot LNG) License, effective for 30 years from May 7, 2009, permitting Spot LNG imports.

Currently, Setgaz is preparing to launch its operations once the liberalization of the natural gas market and economic conditions create favorable trading opportunities.

BİNATOM ELEKTRİK

Corporate Name: Binatom Elektrik Üretim A.Ş.

Field of Activity: Binatom Elektrik Üretim A.Ş. was established on February 20, 2002. Under the Electricity Market Law No. 4628, the company has obtained two licenses: one to operate in the Gediz district of Kütahya for 49 years starting March 19, 2009, and another to operate in the Emet district of Kütahya for 49 years starting October 6, 2011.

Binatom Electricity's main area of activity is electricity generation, with a total installed capacity of 12.533 MWm (2.070 MWm in Gediz and 10.463 MWm in Emet). With an annual average production capacity of 95 million kWh, Binatom Electricity's generation is on a start/stop basis in accordance with free market prices.

Additionally, the company monitors and evaluates new investment opportunities in the country's changing and developing market conditions.

SETEL ELEKTRİK

Corporate Name: Setel Elektrik Enerjisi İhracat İthalat ve Toptan Satış A.Ş.

Field of Activity: Setel Elektrik Enerjisi İhracat İthalat ve Toptan Satış A.Ş. was established on February 11, 2008. Under the Electricity Market Law No. 4628, the company obtained a license from the Energy Market Regulatory Authority on April 17, 2008, to conduct wholesale activities for 20 years.

Setel Elektrik's main activities include wholesale and retail electricity sales, as well as electricity export and import. The company began active electricity trading in 2010. In 2014, Setel Elektrik sold a total of 28 million kWh of electricity to wholesale and eligible consumers. Additionally, the company evaluates import and export opportunities based on market conditions.

AKDOĞAN TREN KARGO TAŞIMACILIK A.Ş.

Akdoğan Rail Cargo Transportation Inc. was established on May 27, 2025, with the purpose of transporting import and export freight by rail to and from Europe through the Thrace Region, which constitutes the majority of Türkiye's territory on the European continent.

With an environmentally conscious approach, a business model has been created in line with both national and EU regulations through the investment in fully electric locomotives—delivering zero carbon footprint—and certified for compatibility with the railway infrastructure of 11 countries.

By introducing a new dimension to the traditional border-to-border transshipment model in international rail transport, it will become the first in Türkiye and EU countries to implement a rail freight system that enables uninterrupted cross-border operations (without locomotive replacement) within the framework of mutual interoperability.

AKDOĞAN SÜRDÜRÜLEBİLİR YATIRIMLAR HOLDİNG A.Ş

On May 22, 2025, it was established with the purpose of participating in the capital and management of existing and future companies, addressing their investment, financing, organization, and management matters within a consolidated structure, enhancing the security of investments against economic fluctuations, and thereby ensuring that these companies develop and continue in a healthy manner in line with the requirements of the national economy. To this end, it engages in commercial, industrial, and financial initiatives; and undertakes investment activities such as purchasing all kinds of movable and immovable properties domestically and abroad, establishing companies, acquiring shares, and obtaining loans from domestic and foreign finance and credit institutions.

Power of SETAŞ in the construction industry

Since its inception, SETAŞ İnşaat has upheld its commitment to quality, completing strong projects and building structures that add value to life with every foundation it has laid.

The company has developed projects that best meet metropolitan demands by analyzing the needs of cities and their surroundings. Keeping pace with the rapidly changing world through its world-class innovative power, SETAŞ has adapted to current advances with its broad vision, while maintaining an environmentally friendly approach in every one of its projects.

Projects

Over half a century, we have completed dozens of projects and received payments exceeding \$405 million.

SETAŞ regularly prepares rating reports to maintain and strengthen its position in the sector regarding financial strength and reliability. We are continuously monitoring and improving our financial performance and industry reputation by regularly updating our company's rating reports.

December 01, 2023

Credit Rating

Long-term (National) : (TR) A+

Outlook : Stable

Short-term (National) : (TR) A1

Outlook : Stable

Valid Until : December 02, 2024

SETAŞ İnşaat Ticaret ve Sanayi A.Ş. Nasuh Akar Mah.,
Türk Ocağı Cad., 1400. Sok., No: 34/3, Balgat, Ankara

Tel: +90 (312) 287 38 38 **Fax:** +90 (312) 287 57 77

<http://www.setas.net>

Outlook

In 2022, the company's revenue decreased by 12.1% compared to the previous year, falling to 73.8 million TL, of which 70 million TL was recognized based on the percentage of completion in accordance with revenue from customer contracts (TFRS 15). In accounting for the revenue and costs of ongoing projects, estimates and assumptions from project budgets are used. In 2022, the company achieved a profit of 24.5 million TL from the sale of tangible fixed assets (2021: 4.9 million TL) and generated a net profit of 98.1 million TL (2021: 84.3 million TL). As of the end of 2022, the company is considered to have positively differentiated itself from the overall industry outlook in terms of financing costs. The company has no foreign currency liabilities as of year-end 2022. Its financial ratios have generally shown a positive trend compared to the previous rating period. Founded in 1975, the company has completed commitment projects worth 4.4 billion TL since its establishment. Its portfolio includes an ongoing infrastructure construction project worth a total of 105 million TL, commissioned by Çinigaz. While there is some concentration in receivables/portfolio, considering the employer institutions, the company's ability to collect receivables is evaluated as strong. The company did not make any new investments in 2022 but continued its existing projects. It operates with minimal reliance on bank loans and maintains a strong equity structure. 75% of the company's total assets (2022: 287.5 million TL) are held in cash (2022: 215.3 million TL) in time deposit accounts at banks. This demonstrates the company's ability to seize and act on opportunities within the sector. Considering all these factors, the outlook has been determined as "Stable." However, recent developments in global trade and financial markets create uncertainty regarding potential economic outcomes. Additionally, rising construction costs pose a risk that short-term uncertainties may negatively impact infrastructure investment decisions in the future. Developments are being closely monitored, and potential effects on the company will be assessed during the oversight period.

Rationale for the Rating Score

SETAŞ İnşaat Ticaret ve Sanayi A.Ş. ("Company" or "SETAŞ"), established in 1975, operates in construction and contracting. Since its foundation, the Company has primarily been active in infrastructure construction works for the General Directorate of State Hydraulic Works ("DSİ"), and has also been involved in projects for institutions such as the Ministry of National Defense, Petroleum Pipeline Corporation ("BOTAŞ"), and Eti Mine Works General Directorate. Additionally, Çinigaz Doğalgaz Dağıtım Sanayi ve Ticaret A.Ş. ("Çinigaz"), another company within the same group as SETAŞ, has undertaken natural gas distribution network investments in the Kütahya region. Çinigaz has obtained a distribution license from the Energy Market Regulatory Authority (EPDK) to distribute and sell natural gas in Kütahya and its districts for 30 years starting from 2004. As a result of the Company's history and position in the domestic market, our comparative sector analyses, and examination of the financial/operational risks carried by the company, its long-term rating has been confirmed as (TR) A+ and its short-term rating as (TR) A1.

Previous Rating (November 25, 2021):

Long Term (TR) A+

Short Term (TR) A1

SETAŞ İnşaat Quality Certificate

As SETAŞ, maintaining the highest standards of quality and safety is one of our fundamental principles.

We continuously update our ISO certifications by adopting the continuous improvement of our business processes and services, customer satisfaction, and occupational safety as our core values.

Regularly reviewing and updating our ISO certifications is among our strategic objectives. We are committed to continuously enhancing the quality of services we provide to our customers and business partners.
